

Change email account password in Qmailadmin (mail server):

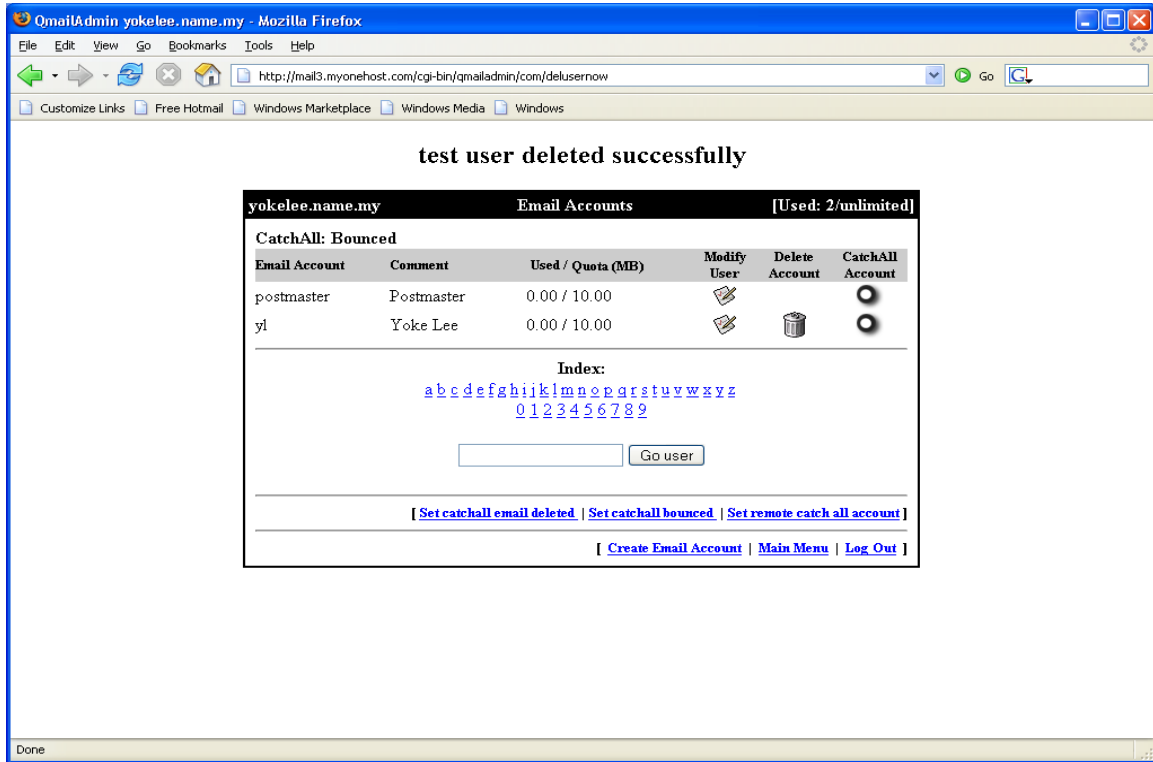

1.) To access your email management system, just access to 'http://mail.yourdomainname.com' => Select 'Qmailadmin'

2.) Login User Account as 'postmaster', your domain name and password for postmaster.

3.) Click 'Email Account' in the Main Menu => Click 'Modify User' for the email account

4.) Key in the new password => OK. Done.
